

B104 FIBRECLEAN

LABEL INSTRUCTIONS

Product Description & Directions for Use:

A soil encapsulating formulation designed to clean carpets and wet-cleanable fabrics by spray and brush application. Fibreclean can be applied regularly as spray maintenance cleaner to carpet traffic lane areas and upholstery seating to help maintain the brightness and appearance of carpet and furnishings in commercial buildings and transport environments.

For professional and industrial use only.

Mix 100ml of Fibreclean per litre of warm water (1 to 10).

Always pretest carpet or fabric for colour fastness and possible colour or texture change with diluted solution before proceeding. Do not use on water sensitive upholstery fabrics.

For best results always vacuum carpets and upholstery and treat spots and stains before the application of Fibreclean.

Carpets: Apply diluted solution lightly by pressure sprayer then brush with carpet pile brush or cylindrical brush machine.

Do not over apply which may result in longer drying time.

Carpet should be touch dry (approx.30 to 60 minutes) before re-use.

Upholstery: Apply diluted solution lightly by hand pump-up sprayer to all body contact areas of upholstery fabric then brush with upholstery hand brush and leave fabric to dry thoroughly before re-use.

- Spray maintenance cleaner for commercial carpets and upholstery.
- No rinse soil encapsulating formula
- Helps maintain brightness and appearance of carpets and furnishings in commercial buildings and transport environments.
- Clear liquid with ocean breeze fragrance.

pH Concentrate: 6.0
