PROCHEM EUROPE LTD.
PLASTICS STATEMENT

At Prochem Europe Ltd we are aware of the growing concerns regarding the use of plastic, in particular its sustainability and environmental fate.

As manufacturers, users and consumers, we all have a responsibility to prevent and recycle waste in a responsible manner.

We encourage responsible re-use, recycling or disposal of our packaging. In many instances our plastic containers can be re-used, recycled, reprocessed, or sent to energy-from-waste facilities to produce heat and fuel, rather than sent to landfill.

Our 5L and 1L containers are now produced using a minimum of 35% post-consumer recycled (PCR) plastics, thus reducing the amount of virgin plastics in our containers.

We are committed to working with our suppliers and customers, towards reducing the generation of waste, and sustainable packing solutions which perform well, whilst not at the expense of the environment.
