FIBREFRESH

LABEL INSTRUCTIONS

Product Description & Directions for Use:

- Bio-enzymatic dual-action deodorizer
- Fast odour control with long-term natural biological action
- Neutralises and digests odours on carpets, fabrics and most surfaces
- Effective against urine, food and smoke and many other organic odours

A dual-action biological deodoriser for professional restoration and institutional cleaning applications. Fibrefresh incorporates a fast acting odour absorbing formula with long-lasting bio-enzymatic action to neutralise most organic odour residues such as urine, food and smoke in carpet, fabrics and most surfaces.

For professional and industrial use only.

Always pre-test surface to be treated in an inconspicuous location.

Remove odour-causing surface soil when possible.

Mix 1 part Fibrefresh with 2 parts water.

For difficult odours mix Fibrefresh with equal parts of water or use undiluted.

Apply directly onto odour source using a coarse spray. Do not mist into air.

Allow solution to penetrate and contact the source of the odour.

Allow dwell time for deodorisation and biological digestion process.

Carpets and fabrics should be rinsed with B109 Fibre & Fabric Rinse solution.

For difficult odour problems re-apply Fibrefresh and allow to dry.

- Professional biological deodoriser for carpet, fabric & hard surface restoration.
- Fast acting odour absorbing formula with long lasting bio-enzymatic action.
- Apply by sprayer before cleaning and after rinsing.
- Clear liquid with sweet fresh fragrance.
