

S762

POWDERED DEFOAMER

LABEL INSTRUCTIONS

Product Description & Directions for Use:

A highly concentrated anti-foam agent which will neutralise excessive foaming in the vacuum hoses and recovery systems of hot water extraction carpet cleaning equipment.

For professional and industrial use only.

Pre-dissolve 15ml. (1 measure scoop) of Powdered Defoamer in a small amount of cold water and feed this solution into the vacuum hose with the vacuum motor switched on.

For upright extraction machines with no vacuum hose, add pre-diluted Powdered Defoamer directly to the waste recovery tank. Repeat above methods of defoaming after every emptying of the waste recovery tank.

For heavy foam from previously shampooed carpets, increase the amount of Powdered Defoamer as required to prevent foam build-up.

Do not add Powdered Defoamer to the cleaning solution.

- Super anti-foam concentrate for carpet hot water extraction machines.
- Economical powdered defoaming agent which can be pre-diluted and added into extraction machine waste tanks.
- Contains pure silicone anti-foam and inert ingredients.
- White moist powder.

pH Concentrate: Not applicable

pH Diluted: 8.0

Keep out of reach of children.

Do not get in eyes, on skin, or on clothing.

Wear protective gloves.

IF IN EYES: Rinse cautiously with water for several minutes.

Remove contact lenses, if present and easy to do. Continue rinsing.

Get medical advice / attention.

Safety data sheet available on request.

Please consult the Safety Data Sheet before using this product.
