

Infection Control Products & Equipment

The Prochem range of professional cleaning and restoration products incorporates a selection of chemical solutions and equipment suitable for sanitising hard surfaces, carpet and fabrics.

These are available through our comprehensive distributor network or can be ordered online at www.prochem.co.uk

Please contact our sales office for more details - 020 8974 1515 or sales@prochem.co.uk

→ CR2 - "TOUCH-FREE" MULTI-SURFACE CLEANING SYSTEM

The new CR2 multi-surface cleaning machine combines a pressure washer with a powerful vacuum system for "Touch-Free" cleaning that effectively deep cleans public facilities. Where traditional methods of cleaning like mopping are ineffective, the CR2 breaks loose dirt and grime from porous surfaces and hard to reach areas so it can be effectively removed with the squeegee and vacuum system. Suitable for use with Microsan and Clensan.

The CR2 comes equipped with a powerful 500 psi pump with built-in auto-chemical feedsystem for cleaning and pressure washing, a 3-stage vacuum system for quick and effective water and soil recovery, and a built-in hose and wand caddy system to easily transport the machine and all the necessary tools to the job site.

For complete versatility, the optional Heat 'N' Run system can be used to boost cleaning performance and the optional carpet and upholstery cleaning accessories can be utilised with the CR2 to make the machine a true multi-surface restoration system.

→ D500 MICROSAN® - 5L & 1L

Multi-surface biocidal cleaner for hard surfaces, floors, carpets and upholstery. Effective against bacteria including MRSA and viruses including Hepatitis B, HIV and Coronavirus. Approved to EN1276, EN13697, EN1650, EN14476. Not recommended for fogging. 5L dilution - 1:50 (2%) for standard application 1:16 (6%) for heavy soil and virus contamination. 1L spray - ready to use (6%).

→ B125 CLENSAN® - 5L & 1L

Multi-surface biocidal sanitiser for carpets, upholstery, floors and hard surfaces. Effective against bacteria and viruses including Norovirus and enveloped viruses. Approved to EN1276, EN13697, EN13727, EN14476, EN1650. Not recommended for fogging. 5L - dilution 1:20 (5%). Norovirus 160ml per litre (16%) 1L spray - ready to use (5%).

BIOCIDES Use biocides safely. Always read the label and product information before use.

→ SPRAYING SYSTEMS

Professional quality sprayers from the Prochem range, suitable for applying sanitisers, disinfectants and other products.

→ DISINFECTION MISTING MACHINE

Micro-Mist M500

The new Micro-Mist surface disinfecting system is a complete solution for quickly disinfecting large surface areas and touch-points of interior facilities and public areas.

The Micro-Mist system provides the operator with a compact and powerful package for quick application of Microsan and Clensan disinfecting solution in a fine "non-drift" mist to interior surfaces, floors, carpets, seating, upholstery and multiple surfaces and touch-points.

With a 15 litre solution tank and 250 psi solution pump the Micro-Mist will effortlessly apply disinfecting solution over large areas with its 70 micron misting gun connected to a 7.6 m industrial solution hose with brass quick connects.

The on-board caddy system simplifies transporting the Micro-Mist to the job location with all tools and solution necessary to complete the surface disinfecting job in one trip.

→ BATTERY SPRAYER

REB-15 BM4308

Re-chargeable 15L Li-ion 18v back-pack battery sprayer with variable pressure adjustment, stainless steel lance and fanjet nozzle. Suitable for applying Microsan® and Clensan®.

→ POLYETHYLENE SPRAYERS

Clean-Matic 1.25E with misting nozzle BM4311

Pump-up hand sprayer with disinfection 100 micron surface misting nozzle. Suitable for pH 7 to 14 multi-surface disinfectants and biocides such as Microsan® and Clensan®. 1.25 L capacity with EPDM seals, safety valve and 360 degree spray function.

Rondo-Matic 5L CP4301

Impact resistant polyethylene tank with Viton seals, stainless steel pump rod and spray lance, safety valve and 8004 fanjet nozzle. Suitable for spray disinfection using Microsan for hard surfaces and Clensan for carpets.

Clean-Matic 5P BM4304

Professional quality polyethylene sprayer with stainless steel lance, fanjet nozzle and Viton seals. 5 litre capacity, suitable for application of pre-spray cleaners, sanitisers and protective treatments.

→ STAINLESS STEEL PRESSURE SPRAYERS

5L Stainless Steel CP3401

Designed for the application of disinfectants, sanitisers and other spray treatments. Top mounted hose fittings and separate filler cap. Fitted with fanjet nozzle, Viton® seals and pressure gauge.

10L Stainless Steel CP3402

As previous 5 litre model, but this 10 litre capacity sprayer has an extendable coiled hose.

→ ADDITIONAL PART

Hollow cone disinfection nozzle BM5042 (not required for BM4311)

Fine mist NF125 hollow cone nozzle for spray disinfection. Fits on spray lance in place of standard nozzle. Suitable for use on REB 15 Battery sprayer, Clean-Matic 5P, Rondo-Matic 5L, 5L and 10L stainless steel sprayers.
